

PROMASTER® 17-50mm Digital f/2.8 XR EDO Aspherical Autofocus Zoom Lens

Features:

The AF17-50mm F/2.8 is a lightweight, compact, super fast standard auto focus zoom lens designed exclusively for digital SLR cameras. The very fast F/2.8 aperture is ideal for existing light photography. The wide F/2.8 maximum aperture lets you achieve a shallow depth of focus for creative portraits, or get higher shutter speeds to help you freeze the action. When selecting an all around standard zoom lens, the 17-50mm is the ideal choice.

PROMASTER EDO (Enhanced Digital Optics) lenses have higher resolution, better control of flare and ghosting, less light fall-off and lower chromatic aberration than traditional lenses meant for film based SLR's.

Specifications:

- Lens Construction: 16 Elements in 13 Groups
- Minimum Aperture: f/32
- Minimum Focusing Distance: 10.6" (0.27m)
- Maximum Magnification Ratio: 1:4.5
