

PROMASTER® 28-300mm XR EDO Aspherical Auto Focus Zoom Lens

Features:

The AF 28-300mm XR EDO zoom covers the largest focal length range of any of the wide angle to telephoto lenses. Whether you shoot film or digital, the lens provides high image quality for both platforms. When used with APS-C size digital SLR cameras, the AF 28-300 XR EDO lens has an angle of view equivalent to approximately 44-465mm, covering the standard to ultra telephoto range with no sacrifice of quality or aperture range.

The AF 28-300 has the versatility that makes every situation easy to photograph. PROMASTER's AF 28-300mm XR EDO zoom lens now features our Enhanced Digital Optic (EDO) design, making it the ideal lens for use with both digital and film cameras.
