

# [ *Mini* *Still Life Table* ]

## Parts included:

1. Open the package, remove all the fittings and place on a clean surface as pictured above.

2. Assemble frame according to the attached drawing. Install the corresponding tubes and lock in place by inserting the supplied screws and tightening with the supplied hex wrench. (Note: To correctly position the tubes on tubes B and C, you must remove the spanner handle, unfold the tubes so the short tube is at the 90 degree position from the longer tube and replace the spanner handle.)

3. Install the diffusion surface as shown above and attach in place with the provided clamps. Install the light mounts in the positions shown.

4. To photograph larger items you can adjust the back of the table to full horizontal position.

### **ONE YEAR UNCONDITIONAL GUARANTEE**

If for any reason, this ProMaster product fails within ONE YEAR of the date of purchase, return this product to your ProMaster dealer and it will be exchanged for you at no charge.

ProMaster products are guaranteed for ONE FULL YEAR against defects in workmanship and materials. If at any time after one year, your ProMaster product fails under normal use, we invite you to return it to ProMaster for evaluation.
